## Biography

---

Rajeev is a leader with a passion for creating value, generating growth, and delivering technologies that have a positive impact on people's lives. He has deep expertise in many areas of technology, particularly mobile networks and related topics such as big data analytics, cloud computing, internet business models and more. As CEO of Nokia Solutions and Networks, he delivered a complete turnaround, taking non-IFRS operating profitability from significant losses to among the highest quality in the sector; cash flow from rapid burn to strongly positive; and, based on external analyst estimates, increasing the value of the business from in the range of €1 billion to €9-10 billion. In his earlier roles as head of the Global Services unit and APAC region, he delivered both strong growth and profitability improvements.

In his more than 25 years of international experience, Rajeev has worked in roles comprising strategy and M&A, product marketing, sales, major account leadership, regional and business unit leadership and has lived in Middle East, Asia, Africa and Europe. Rajeev has a Bachelor of Engineering (Electronics and Communications) from Manipal Institute of Technology, India. He was born in India in 1967, is a Singaporean citizen and is based in Espoo, Finland.
